California Proposition 65 Compliance Statement

Valid from January 1, 2025 – January 1, 2030

Dear Business Partner,

Thank you for your request.

Regarding: California Health & Safety Code Section 25249.5 et seq., the Safe Drinking Water and Toxic Enforcement Act of 1986 ("Proposition 65")

Box Enclosures, Inc. ("Box Enclosures") is aware of Proposition 65, which requires businesses to provide a warning before knowingly and intentionally exposing individuals in California to any chemical listed by the State of California as known to cause cancer, birth defects, or other reproductive harm.

This statement applies to the plastic enclosures for electronic circuits manufactured and/or supplied by Box Enclosures ("Products").

Based on information and certifications provided by our raw material suppliers, and to the best of our knowledge as of the date of this letter, Box Enclosures certifies as follows:

- 1. No Listed Chemicals:** The Products do not contain, at levels requiring a warning under Proposition 65, any chemical currently listed by the State of California as known to cause cancer, birth defects, or other reproductive harm.
- 2. Basis of Certification:** This certification relies on supplier-provided material data sheets, certificates of analysis, and/or component-level declarations for the resins, colorants, additives, and other materials used in the Products.
- 3. No Independent Testing:** Unless otherwise noted in writing, this certification is based on supplier documentation rather than independent laboratory testing performed by Box Enclosures.

Should Box Enclosures become aware that any Product, material, or component supplied by our vendors or subcontractors contains a listed chemical at a level requiring a Proposition 65 warning, we will promptly notify affected business partners and take appropriate corrective action, which may include requiring a warning label, reformulation, or termination of the applicable supplier relationship.

This letter is provided for informational purposes to assist our business partners with their own compliance obligations and does not constitute a legal opinion. Business partners remain responsible for their own independent compliance determinations under Proposition 65.

Kind Regards,

James Fiocchi
