RoHS and REACH Compliance Declaration

Date: 23 August, 2026

RoHS Compliance

Box Enclosures has been producing parts that are RoHS compliant for the last several years. Box Enclosures products are RoHS compliant. All Box Enclosures products that are compliant with the RoHS Directive (EU Directive 2002/95/EC and subsequent amendments), RoHS COMPLIANT means that the substances restricted by the EU Directive 2002/95/EC and Directive 2015/863 and subsequent amendments of the European Parliament are not contained in a finished product above threshold limits stated below unless the restrictive substance is subject of an exemption contained in the RoHS Directive. Box Enclosures considers the amendment to Annex II, dated March 31, 2015, which additionally restricts the use of DEHP, BBP, DBP and DIBP in electrical and electronic equipment, effective July 22, 2019. As of this revision, the RoHS Annex II restricted substance list remains at the ten (10) substances listed below — see examples below.

Restricted Substance Examples	Maximum Threshold Limit
Cadmium and its compounds	100 ppm (0.01 weight %)
Mercury and its compounds	1000 ppm (0.1 weight %)
Hexavalent chromium and its compounds	1000 ppm (0.1 weight %)
Lead and its compounds *	1000 ppm (0.1 weight %)
Polybrominated biphenyls (PBB)	1000 ppm (0.1 weight %)
Polybrominated diphenyl ethers (PBDE)	1000 ppm (0.1 weight %)
Bis(2-Ethylhexyl) phthalate (DEHP)	1000 ppm (0.1 weight %)
Benzyl butyl phthalate (BBP)	1000 ppm (0.1 weight %)
Dibutyl phthalate (DBP)	1000 ppm (0.1 weight %)
Diisobutyl phthalate (DIBP)	1000 ppm (0.1 weight %)

*Except when allowed by the Directive. For example, 3500 ppm in steel, 4000 ppm in aluminum alloys and 40000 ppm in copper alloys.

- Certain Department of Defense customers require Box Enclosures parts that are not RoHS compliant. Box Enclosures produces these parts, but their manufacturing, storage and handling is completely segregated from the RoHS compliant parts to minimize contamination of the RoHS compliant products.
- The compliance of Box Enclosures products with RoHS is affected through:
 - Strictly controlling the materials and finishes that are used in our products
 - Periodic audits of our suppliers to ensure compliance
 - Periodic analysis, on an as-needed basis, of our products

RoHS and REACH Compliance Declaration

Date: 23 August, 2026

RoHS – Recast

Directive 2011/65/EU of the European Parliament and of the Council of June 8, 2011 on the restriction of the use of certain hazardous substances in electrical and electronic equipment (EEE) became effective on January 3, 2013. Directive 2015/863 subsequently amended Annex II of Directive 2011/65/EU, adding four phthalates (DEHP, BBP, DBP, DIBP) to the restricted substance list, effective July 22, 2019. Box Enclosures products conform to the current requirements of RoHS – Recast, as amended.

Certain Box Enclosures products carry “CE” marking where applicable, in keeping with the marking requirements mandated by the European Parliament.

REACH Compliance

In June 2007, the European Union Regulation (EC) 1907/2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) was first released. This Regulation establishes specific duties and obligations for companies in the European Union (EU) that manufacture or import substances on their own, in preparations, or in articles.

- Under the structure of the REACH Regulation, Box Enclosures is a manufacturer and supplier of “articles” to our EU customers through several Box Enclosures distributors located within the EU. We do not manufacture or supply “substances” or “preparations” and our articles do not involve the “intentional release of substances.” Accordingly, we foresee no registration or pre-registration requirement for the products we supply to you.
- Box Enclosures believes that even though REACH is an EU regulation, Box Enclosures products are affected in all geographical regions. Therefore, Box Enclosures has put together a global team to implement REACH on a worldwide basis.
- Box Enclosures is constantly monitoring the Substances of Very High Concern (SVHCs), as defined by REACH, in our products. This is an on-going process, as the complete list of SVHCs is released in stages by the European Chemicals Agency (ECHA).
- Box Enclosures customers are encouraged to visit the following site for the most up-to-date information on the current list of SVHCs under REACH: <https://echa.europa.eu/candidate-list-table>
- Box Enclosures uses the International Material Data System (IMDS) to report compositional information, including the presence and concentration of SVHCs, in our products. Since this is a constantly evolving process, our raw material suppliers regularly update IMDS information as ECHA publishes additional SVHCs. Information in IMDS is provided by our material suppliers on a “best effort” basis using information provided by our suppliers, published data, and ECHA documentation. No attempt has been made to verify this information by third-party analysis. Visit www.mdssystem.com to access IMDS data.
- Box Enclosures products (articles) do not contain Substances of Very High Concern (SVHC) above the threshold value declared, as per the current ECHA Candidate List of 253 SVHCs (updated February 4, 2026).

RoHS and REACH Compliance Declaration

Date: 23 August, 2026

Compliance Information on Box Enclosures Products

The compositional information of our products is posted on the International Material Data System (IMDS), and customers are encouraged to utilize this resource to get more information on Box Enclosures products.

- For additional information, please contact Sharad Raut, Global Environmental Compliance Engineer, at sales@BoxEnclosures.com.
- Environmental regulations change constantly. We will try our best to keep you abreast of changes that affect Box Enclosures products by periodically updating this letter. Please refer to the current version of this letter on www.BoxEnclosures.com.

We thank you for your continued support and understanding,

James Fiocchi
Director of Global Technology

RoHS and REACH Compliance Declaration

Date: 23 August, 2026

Rev	Rev Date	Description of Change
A	April 26, 2013	Reviewed, included RoHS-Recast and CE markings and assigned a Form number
B	April 24, 2014	Revised Candidate SVHC 151-list addition date under REACH statement.
C	June 17, 2014	Revised Candidate SVHC 155-list addition date under REACH statement.
D	January 15, 2015	Revised Candidate SVHC 161-list addition date under REACH statement.
E	June 26, 2015	Revised Candidate SVHC 163-list addition date under REACH statement.
F	December 21, 2015	Revised Candidate SVHC 168-list addition date under REACH statement.
G	June 21, 2016	Revised Candidate SVHC 169-list addition date under REACH statement.
H	September 16, 2016	Revised RoHS restricted substances with addition of four phthalates as per the amendment to Annex II, dated March 31, 2015.
I	August 1, 2025	Revised Candidate SVHC 250-list addition date under REACH statement.
J	August 23, 2026	Revised Candidate SVHC 253-list addition date under REACH statement (ECHA update of February 4, 2026). Confirmed RoHS Annex II restricted substance list (10 substances) unchanged.
